Important notices

Policy number: [REDACTED]
Policy effective date: June 30, 2021

Your Estimated Home Replacement Cost

Allstate has determined that the estimated cost to replace your home is: \$304,306.

We based your estimated cost on information provided by you and selected data that was available to us, which is described in the "Insured property details" section of your Policy Declarations. Please review all the information in this section to ensure the accuracy of the information used to determine the estimated replacement cost of your home.

The enclosed Policy Declarations shows the limit of liability applicable to Dwelling Protection-Coverage A of your homeowners insurance policy. The estimated replacement cost of your home is the minimum amount for which we will insure your home.

The decision regarding the limit applicable to your Dwelling Protection-Coverage A is your decision to make, as long as, at a minimum, your limit equals the estimated replacement cost as determined by Allstate and does not exceed maximum coverage limitations established by Allstate.

It is important to keep in mind that your Coverage A limits reflect a replacement cost that is only an estimate based on data that was available to us when we made this estimate (this information is described in the "Insured property details" section of your Policy Declarations). The actual amount it will cost to replace your home cannot be known until after a covered total loss has occurred. Please keep in mind that we do not guarantee the adequacy of the estimate to cover any future loss(es).

How Is the Replacement Cost Estimated?

Many factors can affect the cost to replace your home, including its age, size, and type of construction. For example, the replacement cost uses construction data, such as labor and materials, that are available to us when we made this estimate. This estimate is also based on characteristics of the home, which include information that you provided to us. You might have chosen to insure your home for a higher amount than the estimated replacement cost shown above.

Note to Customers Renewing Their Policy

The estimated replacement cost for your home may have changed since the last time we communicated this information to you. This is because, at renewal, Allstate uses the home characteristics that you have provided to us to recalculate and update the estimated replacement cost. Using updated labor and material rates for your zip code, Allstate takes the home characteristics you have provided and determines the updated estimated replacement cost. The information about your

home's characteristics is provided in the "Insured property details" section of your Policy Declarations.

Please note: Your Dwelling information is used to estimate your home replacement cost. It's important to review and update this information so we're using the most accurate details to estimate your home's replacement value.

If the information about your home shown in your Policy Declarations requires any change or if you have any questions or concerns about the information contained in this Important Notice, please contact your Allstate representative, or call us at 1-800-ALLSTATE.
